

Job Offer

Title: Hydro Station Manager – Batawa/Glen Miller Power Plants

Company Profile

As a leading Canadian independent renewable power producer, Innergex develops, owns and operates run-of-river hydroelectric facilities, wind farms and solar photovoltaic parks. Active since 1990, the Company carries out operations in Quebec, Ontario, British Columbia, and Idaho, USA. Innergex has offices in Longueuil, Quebec, and in Vancouver, British Columbia, and employs more than 125 people. The company promotes teamwork, while respecting each employee's individual competencies and aspirations. This position is based near Trenton, Ontario.

Role and Responsibilities

Reporting to the Operations Manager, the Hydro Station Manager will work together with the Hydro Station Operator and will be accountable for the following primary duties:

- Operate the hydroelectric power plants by way of scheduling, conducting, and documenting all regular monitoring and maintenance;
- Carry out all necessary actions for the investigation and resolution of alarms generated by the hydroelectric power plants in order to minimize downtime (availability 24 hours a day when on duty);
- Optimize the output and production of the hydroelectric power plants;
- Perform routine maintenance and repairs for the power plants, the buildings, the grounds and the equipment;
- Perform and or assist any specialized contractors needed to perform major maintenance and repairs for the power plants;
- Adhere to the Occupational Health and Safety requirements of Innergex.

Profile

- Must be “hands-on”, self-starter;
- Have good interpersonal and communication skills (written, verbal, and computer);
- Possess an Ontario driver's license in good standing as well as a general appreciation for outdoors.

Training and Experience

- Experience as a maintenance electrician, millwright or industrial mechanic;
- Experience with hydro plant operations, PLC's, communications infrastructure, high-voltage transmission lines (a definite asset);
- Experience reading and interpreting Engineering drawings;
- Solid knowledge of and high level of performance in adherence with HSE requirements of all activities;
- Innergex provides formal and in-house training, as required.
