### ***About Innergex Renewable Energy Inc.***

For over 30 years, Innergex has believed in a world where abundant renewable energy promotes healthier communities and creates shared prosperity. As an independent renewable power producer which develops, acquires, owns and operates hydroelectric facilities, wind farms, solar farms and energy storage facilities, Innergex is convinced that generating power from renewable sources will lead the way to a better world. Innergex conducts operations in Canada, the United States, France and Chile and manages a large portfolio of high-quality assets currently consisting of interests in 77 operating facilities with an aggregate net installed capacity of 3,071 MW (gross 3,741 MW) and an energy storage capacity of 150 MWh, including 38 hydroelectric facilities, 32 wind farms and 7 solar farms. Innergex also holds interests in 8 projects under development, 2 of which are under construction, with a net installed capacity of 168 MW (gross 206 MW) and an energy storage capacity of 329 MWh, as well as prospective projects at different stages of development with an aggregate gross capacity totaling 6,931 MW. Its approach to building shareholder value is to generate sustainable cash flows, provide an attractive risk-adjusted return on invested capital and to distribute a stable dividend.
